The custom of presenting awards to the great achievers, the performers and the dedicated goes back many years. In fact the Jewish historian Josephus of the 1st century AD recorded the ancient Greek practice of awarding a gold button for gallantry on the field.

We are dedicated to assisting with your recognition of truly “special” people. Each one of us realizes the tremendous amount of emotion that will be involved in the presentation of our products. We consistently produce each and every award from beginning to end, with this foremost in our minds.

Probably the most important part of the award you select, whether it be a crystal vase, trophy or plaque is the inscription. Don’t be mistaken, we place great emphasis on unique ideas, quality, materials, workmanship and price, but we realize that awards are meant to be more than just pretty. The inscription or engraving as we refer to it, should be something that really touches the recipient, something that positively displays your appreciation, admiration, or gratitude.

In this brochure we will explain to you the many types of materials and processes that are available to create the perfect award. We will provide numerous examples of truly outstanding inscriptions, a reference section to help you find “those perfect words” and also section filled with popular illustrations to use in the development of your unequaled awards.

We are sure that a short time spent on preparation, possibly with others who may be responsible for the presentation of the award, will be time well spent. If you need help beyond what this brochure provides, please don’t hesitate to call on one of our professional sales representatives. We have many good ideas and are ready to assist you at any time.

One of the first decisions to be made will be the type of award desired. This involves not only the shape, size and medium, but also the type of etching. We have a variety of catalogs and a complete showroom filled with samples.
Your decision on the color of engraving or imprinting a plate can be made easier with a little background information. Generally you will want to use metal that will provide good contrast to the lettering. Our most popular color combination is black imprinting on a gold plate. Other considerations on plate color involve the utilization of company school, club or team colors. In most cases you will want to choose a color for the rim (or border) plate that surrounds the engraving plate. A plaque for a school or club whose colors are red and blue might consist of red engraving plate, blue border plate and silver engraving. The lettering itself can be silver, gold or black - or take advantage of our FULL COLOR PROCESS for a stunningly dramatic presentation. Be sure to consult our professional sales staff for further details and recommendations, custom-designed for YOU.

Engraving Plate Color Combinations
Listed in Order of Their Popularity

<table>
<thead>

</tbody>
</table>

Other colors are available, including as mentioned above, FULL COLOR on white (preferred, for truest color), gold or silver, with any color rim to match or contrast your imprint.
When deciding on overall plaque size keep in mind that we can fit almost any amount of engraving on any size plaque. We proportion each line of engraving to fit the desired award appropriately.

Remember:
Small engraving area + lots of engraving = smaller letter size.
Large engraving area + not much engraving = larger letter size.

We feel that the actual engraving typestyle choice is best left up to our experienced art, typesetting and engraving departments. However, if you require specific type styles or sizes we can most likely accommodate your request. We have well over 3000 different engraving type faces available and can match any size you choose.

In the following pages you will find reproductions of many plaques we have produced. These sample have been provided to assist you in developing the wording for your awards. You will notice that many of the samples have company, school or club logos. You logo can be reproduced in detail on your awards for a nominal charge, from your black & white artwork. As you can see, the addition of a logo definitely enhances the appearance of the awards.

The samples have been organized into categories such as service, appreciation and achievement. Feel free to use the exact wording as shown on the samples, changing only the names and dates if you like.

Toward the end of the brochure we have included a Thesaurus section that provides synonyms of many commonly used words on award plaques. Use this section to assist you in creating the perfect inscription for your awards.
**IMAGE AREAS & LAYOUT**
Because of the many unique awards we offer, all of the image areas and overall sizes listed in the catalog are approximate. Our art department will arrange your artwork and copy to fit the design and shape of each individual award and provide a quality presentation.

**PRODUCTION TIME**
Normal production time for most items is 5 working days. Large orders or custom designed pieces can take longer and will be quoted prior to the beginning of production. *Advising us in advance of your planned presentation date is highly recommended.* We will schedule production to allow ample shipping time for you to receive your awards a few days prior to that date. However, delays in artwork approval or shortened production time could result in the need for priority shipping and/or expedited production service.

**RUSH ORDERS**
Rush orders are our specialty. We understand that sometimes the need for an award comes up unexpectedly. When that occurs, we are ready, willing and able to help you meet your deadline. In order to maintain our commitment to helping YOU look good, we offer one and two day service on most of our products.

**PAPER PROOFS**
A paper proof will be provided for all crystal, glass, acrylic and marble awards. When multiple items of the same kind are sold, a general layout proof will be provided first. Once the general layout is approved, we will provide art proofs for all individual awards to ensure spelling accuracy. *We do not generally supply art proofs for plaques, trophy plates, or name badges.*

**CUSTOM DESIGN SERVICES**
*When you're looking for a special award or sign that's unique to your organization, you can turn to us with confidence.* Unlike many smaller awards companies, we can design and fabricate totally custom awards, paperweights and signs. From concept to creation, our experienced staff can guide you every step along the way. Using a wide array of media such as acrylic, plastic, vinyl and cultured stone we can design your award and advise you in selection of the proper medium to best showcase your new creation. Our *NEW* state of the art CNC router and high power lasers enable us to develop unique designs specifically tailored to your needs. Ask one of our sales associates how we can help create the perfect award, paperweight, or sign for your next presentation.

We also maintain a complete art department as one of the most important parts of our customer service. Using our creative resources, we can design and execute an award that will be unique to your organization. Our art department can also recreate logos and special art to be used in any of the processes offered by our factory for awards, promotional products, banners, signs and name badges.

**COMPLETION NOTICE**
When production on your order is completed we will fax and e-mail a completion notice. Please help us to keep in contact with you by providing us with current contact information.

**SHIPPING**
We understand how valuable your time is, that's why we have developed a full service shipping & receiving department. Instead of driving across town to pick up, or deliver an award, have your award arrive at its destination for a nominal fee. We also offer complete fulfillment services, ask one of our sales associates for more details.
Guidelines for Supplying Computer Generated Artwork

IMPORTANT INFORMATION

When providing digital art these Guidelines MUST be followed in order to proceed:

Hard copy of the artwork is desired. This will enable us to be sure your file has opened correctly. If the art provided is to be used for engraving or glass etching, it must be Black and White Line Art. No grayscale or halftones are acceptable for those processes. If your art is to be imprinted in color on a name badge or promotional product, we must either have a hard copy printout showing us the colors that we are trying to match, or the pms numbers of each color.

All digital artwork submitted MUST meet our artwork requirements shown below or your order may be delayed and additional artwork charges may be incurred. Art charges are $50.00 per hour. We also have the capability to recreate your art specifically for the type of product you are purchasing. Production time for recreating art is typically 24-72hrs depending on the complexity. Most logos can be recreated within 24hrs for between $25 - $75.

Please contact your salesperson to be sure your art will work.

PLATFORM - We are a PC based company. All Macintosh files must be provided in a PC compatible version.

RESOLUTION - Most of our processes require a minimum of 300 dpi resolution. Graphics designed for use on the Internet are not acceptable. Art used for printing banners and posters should be submitted in the highest possible resolution.

Formats we prefer are: .eps .ai .cdr .psd

HARD COPY - It is recommended that you provide a hard copy of the artwork and any special instructions with any digital file submitted.

QUALITY - Simply because the art file is in a digital format we can accept that does not mean it will be clean and useable. Faxed, scanned or art which has been reproduced numerous times will not improve and will not look its best without additional clean up efforts. We reserve the right to refuse any artwork that will not meet our standards of product quality when reproduced with our equipment and processes.

BLACK & WHITE LINE ART - This is our most preferred type of art for laser engraving, sand etching & screen printing. Black and white line art contains black and white lines only. No shades of gray or halftones can be used when this art format is requested. Black & white line art is required for engraving glass, crystal, acrylic, marble, wood, plastic and aluminum. This type of art is also required for vinyl letters and most signage.

BLACK & WHITE HALFTONE ART - This art will contain shades of gray or halftones. Some of our processes will NOT reproduce this type of artwork without additional refinement.

COLOR ART - A composite proof and separated color plates are also beneficial. Please send the latest version of disk art and label each color by the exact Pantone number wanted. If your art is not separated when submitted, additional charges may be incurred.

EMAIL - Naming protocol is important. Please do not name your artwork "logo". Instead please name the file using an easily identified label such as "festival logo". You may send your artwork to art1@edco.com.

Programs

CorelDraw - Windows - .cdr - version 12.0 or lower; convert text to curves
Adobe Illustrator - Windows - .ai or .eps files - Save Graphics as Adobe Illus. 10.0 or lower and convert text to outline
Photoshop - Windows - .psd - version 7 or lower; maintain separate layers

File Types

.jpg - only if in high resolution of at least 300 dpi at 200% desired size
.tif - only if in high resolution of at least 300 dpi at 200% desired size
.bmp - only if in high resolution of at least 300 dpi at 200% desired size

Unacceptable Formats

We are unable to achieve satisfactory results when graphics are submitted in the following formats:

Word - .doc format;
Excel - .xls format;
Web graphics - .gif or .jpg - Graphics designed for use on the World Wide Web are not acceptable because of the low resolution typically used.

Fonts

Convert all text to outlines or curves. Please be aware that once this is done the text in your artwork can no longer be edited. If editing is required you must include the Font (TrueType only) on the disk

Colors

When assigning a color to art or text, please use a Pantone color. This will work for process or spot colors.

Accepted File Storage Media

PC formatted 3.5" diskettes
PC formatted Iomega ZIP drives, 100 Mb or 250 Mb
PC formatted CD ROM

Mighty Mites Softball

For All Your Time, Trouble
and Patience -
and for the Hugs We
So Often Needed,
Thank You!

Thanks, Coach,
for Being the Best Thing
That’s Ever Happened
to Our Team

G-O-O-O-O-A-L!!!
**SUPPORT**

**GIRL SCOUTS**

**MANY THANKS**

To

**KAYA DARRO**

For Your Unwavering Support and Tireless Promotion of the Newly-Realized West Collier Girl Scout Camp

Collier County Council of Girl Scouting

---

**FRANKLIN KEMP**

**Presented to You with Gratitude for Your Much-Needed Support During the Difficult Time Following This Past Year’s Hurricanes**

*It is said that in the near future the three most important words in our language will be not “I LOVE YOU” but... “LET ME HELP”*

You Have Helped Your Neighbors and Friends Beyond Measure

---

**BROWARD COUNTY**

**PRESENTED TO**

**HENRI GEORGES**

In Recognition and Appreciation For Your Continued Support and Active Involvement

**BROWARD COUNTY PARKS AND RECREATION DIVISION**

---

**With Love and Appreciation to Ingeborg Pertwee**
